# ABOUT LUMEX DIGITAL

## Who We Are

Lumex Digital is a forward-thinking software development and IT solutions company founded by Josemaria M.N. Based in Kenya, we specialize in building custom software systems, websites, mobile applications, and digital solutions that empower businesses across Africa to automate their operations, reach wider audiences, and achieve sustainable growth.

Since our establishment, we have grown into a trusted technology partner serving diverse industries including healthcare, education, hospitality, retail, legal, real estate, and manufacturing. Our team of experienced developers, designers, and IT consultants work together to deliver solutions that are reliable, scalable, and tailored to each client's needs.

## What We Do

- Custom Software Development
- Website & E-Commerce Development
- Mobile Application Development
- Graphic Design & Branding
- Cyber Security Solutions
- IT Consulting & Digital Transformation
- System Installation, Training & Support
- Cloud Hosting & Infrastructure Management
- Database Design & Development

## Industries We Serve

- Healthcare (Hospitals, Clinics, Pharmacies)
- Education (Schools, Colleges, Training Institutions)
- Retail & E-Commerce (Shops, Warehouses, POS)
- Hospitality (Hotels, Restaurants, Salons)
- Legal & Professional Services (Law Firms, Accounting)
- Real Estate & Construction
- Manufacturing & Logistics

## Our Story

Founded by Josemaria M.N with a passion for technology and a vision to bridge the digital gap in Africa, Lumex Digital started as a small software development firm and has grown into a comprehensive IT solutions provider. Today, we serve clients across multiple countries and continue to innovate and expand our product offerings.

# MISSION & VISION

Our Guiding Principles

## OUR MISSION

To develop reliable software and digital solutions that help businesses automate operations, enhance productivity, and grow.

## OUR VISION

To become a leading software development company in Africa, delivering world-class digital solutions to businesses of all sizes.

## Core Values

### Innovation

Continuously exploring new technologies and creative solutions

### Quality

Delivering excellence in every product and service we provide

### Integrity

Operating with transparency, honesty, and ethical standards

### Customer Satisfaction

Putting client needs at the center of everything we do

### Reliability

Building systems that work consistently and dependably

### Security

Protecting client data and systems with robust security measures

# COMPANY STATISTICS

Our Achievements in Numbers

Lumex Digital continues to grow and expand its reach across Africa, delivering innovative solutions that transform businesses and communities.

## Social Media Management

Content creation, posting, and engagement management

## Business Automation

Workflow automation to reduce manual processes

## Data Backup & Recovery

Protecting your critical business data

# CYBER SECURITY SERVICES

Protecting Your Digital Assets

Lumex Digital provides comprehensive cyber security solutions to protect businesses from digital threats, data breaches, and cyber attacks.

1

## Network Security Assessment

Comprehensive analysis of network infrastructure to identify vulnerabilities and security gaps

2

## Penetration Testing

Simulated cyber attacks to test the strength of your security defenses

3

## Vulnerability Scanning

Automated scanning of systems, applications, and networks for known vulnerabilities

4

## Security Auditing

In-depth review of security policies, procedures, and system configurations

5

## Firewall Configuration

Setup and management of firewalls to control network traffic and block threats

6

## Malware Protection

Implementation of anti-malware solutions to detect and remove malicious software

7

## Data Encryption Services

Protecting sensitive data with advanced encryption technologies

8

## Incident Response

Rapid response team to handle security breaches and minimize damage

9

## Security Monitoring (24/7)

Continuous monitoring of systems for suspicious activities and threats

10

## Email Security

Protection against phishing, spam, and email-based attacks

11

## Cloud Security

Securing cloud infrastructure, applications, and data storage

12

## Compliance & Risk Assessment

Ensuring systems meet industry security standards and regulations

13

## Security Awareness Training

Educating staff on security best practices and threat recognition

14

## Digital Forensics

Investigation and analysis of cyber incidents to determine cause and impact

15

## Identity & Access Management

Controlling user access and authentication to protect sensitive systems

16

## Endpoint Security

Protecting devices (laptops, phones, servers) from cyber threats

# WEBSITE DEVELOPMENT PACKAGES

Choose Your Perfect Plan

# TYPES OF WEBSITES WE BUILD

From Simple to Complex

## Corporate Websites

Professional business presence with company info, services, team profiles, and contact details. Perfect for established businesses.

## E-Commerce Websites

Full online stores with product catalogs, shopping carts, payment gateways, and inventory management for selling online.

## Portfolio Websites

Showcase your work, projects, and creative talents with beautiful galleries and case studies.

## Blog & News Websites

Content-driven platforms with article management, categories, commenting, and newsletter integration.

## Educational Websites

School portals, online learning platforms, course management, and student/parent access systems.

## Real Estate Websites

Property listings, virtual tours, agent profiles, search filters, and inquiry management systems.

## Healthcare Websites

Hospital and clinic websites with doctor profiles, appointment booking, patient portals, and health resources.

## Non-Profit Websites

Charity and NGO websites with donation systems, event management, volunteer portals, and impact stories.

## Landing Pages

High-converting single-page websites designed for marketing campaigns, product launches, and lead generation.

## Directory & Listing Sites

Business directories, job boards, classified ads, and community listing platforms with search functionality.

## Restaurant & Hotel Sites

Menu displays, online ordering, table reservations, room booking, and review management systems.

## Personal & CV Websites

Professional personal branding websites with resume, skills showcase, and contact forms.

# DEVELOPMENT PROCESS

How We Work

1

## Requirement Analysis

Understanding your business needs, goals, and project scope

2

## System Design

Creating wireframes, prototypes, and technical architecture

3

## Development

Building the solution using modern technologies and best practices

4

## Testing

Rigorous quality assurance, bug fixing, and performance testing

5

## Deployment

Launching the system on live servers with proper configuration

6

## Training

Teaching your team how to use and manage the system effectively

7

## Support & Maintenance

Ongoing updates, monitoring, and technical assistance

## Project Delivery Policy

Lumex Digital is committed to fast and reliable delivery of digital solutions. Most website projects are completed within a few days after the initial deposit and content submission. Standard website projects are typically completed within two weeks. Larger systems and custom software projects may require additional time depending on complexity and client requirements.

## Project Timeline Conditions

- Deposit payment is made
- Client provides content (text, images, logo)
- Project requirements are confirmed
- Domain and hosting are ready (if required)

# PROJECT DELIVERY TIMELINE

Fast & Efficient Delivery

Lumex Digital prioritizes fast and efficient delivery of digital solutions.  
Our typical project timelines are as follows:

| Project Type               | Delivery Time              |
|----------------------------|----------------------------|
| Basic Website              | 1 – 4 Days (after deposit) |
| Professional Website       | 5 – 10 Days                |
| Advanced Website           | 7 – 14 Days                |
| E-Commerce Website         | 10 – 14 Days               |
| Custom Software System     | 3 – 6 Weeks                |
| Mobile Application         | 4 – 8 Weeks                |
| Hospital Management System | 6 – 12 Weeks               |
| POS System                 | 2 – 4 Weeks                |

## Service Level Packages

| Package          | Suitable For        | Description                         |
|------------------|---------------------|-------------------------------------|
| Starter          | Small businesses    | Essential features, basic support   |
| Business         | Growing companies   | Advanced features, priority support |
| Enterprise       | Large organizations | Full suite, dedicated support team  |
| Custom Solutions | Special projects    | Tailored to unique requirements     |

### Note:

No standard website project should exceed two weeks unless it is a large custom system or requires special integrations.

# WORK POLICY

How We Operate

Lumex Digital operates with clear policies that protect both the company and our valued clients.

## Customer Confidentiality

All client information is treated with strict confidentiality and never shared with third parties.

## Data Protection Policy

We implement robust data protection measures compliant with international standards.

## Payment Policy

Clear payment terms with milestone-based billing for larger projects.

## Support Policy

Dedicated support channels with defined response times and escalation procedures.

## Project Delivery Policy

Committed delivery timelines with regular progress updates and milestone reviews.

## Revision Policy

Reasonable revision rounds included in every project to ensure client satisfaction.

## Maintenance Policy

Post-delivery maintenance plans to keep systems updated and running smoothly.

## Refund Policy

Fair refund terms for services not delivered as agreed upon.

## Service Agreement

Formal agreements outlining scope, deliverables, timelines, and responsibilities.

# TESTIMONIALS

What Our Clients Say

Lumex Digital developed our hospital management system and improved our operations significantly. The system is reliable and easy to use.

— **Healthcare Client**

They built our company website and helped us reach more customers online. Professional team and excellent delivery.

— **Corporate Client**

Their support team is very responsive and professional. Any issues we have are resolved quickly and efficiently.

— **Retail Business Owner**

We highly recommend Lumex Digital for software and website development. They delivered our e-commerce platform on time and within budget.

— **E-Commerce Client**

The school management system they built transformed how we manage student records, fees, and communication with parents.

— **Education Institution**

Lumex Digital's cyber security audit helped us identify and fix critical vulnerabilities in our network. Highly professional.

— **Financial Services Client**
